- Monitoring traffic capacity and performance
- Running diagnostic tests and performing repairs, as well as developing backup, archiving, and data retrieval procedures.
- Enhancing network security, as well as documenting network processes, diagrams and cabling layouts.
- Troubleshoot local area networks (LANs), wide area networks (WANs), and internet systems

Network Specialist Requirements:

- Bachelor's degree in computer science, information science, or similar.
- A minimum of two years' experience as a network specialist
- Cisco Certified CCNA security,
- Cisco ASA -firewall knowledge. Site-to-site vpn Experience -preferred

- Fortinet firewall knowledge –Experience preferred
- Mikrotik knowledge
- Extensive knowledge of network connectivity, technologies, protocols, and security.
- Exceptional analytical and problem-solving skills.
- Excellent interpersonal, communication, and collaboration skills.
- Great organizational and time management skills.
- Ability to learn fast
- Availability to perform network repairs outside of business hours

A bit about Easypay:

EasyPay is an ewallet solution which offers a large portfolio of local services i.e utility payments, mobile topups, PayTV, police fines, e-commerce payments, event's ticketing, microfinance payments, etc, all in the Albanian leks (ALL). We offer real time payments for all registered customers through the EasyPay mobile application and we also offer our portfolio of services for "walk-in" customers all over Albania, through our extensive network of over 450 agents

Our People:

At Easypay, you'll be joining a movement of people who believe in a better and transparent way of paying online. You'll collaborate to do your best work and take on problems that no one has looked at before.

If you're keen to learn, grow, try new things and aren't afraid of a bold plan, you'll fit right in.

IF YOU FIND YOURSELF IN THESE REQUIREMENTS, PLEASE CONTACT hr@easypay.al until end of September 2021;
